Program:

ASHRAE Webinar Buildings in Balance: IEQ and Energy Efficiency

Thursday, April 17, 2014 Meeting

SDSM&T Surbeck Center
Hisega Room
Rapid City, SD

11:00 AM - 1:00 PM

Presenters:

ASHRAE President William P. Bahnfleth, Ph.D, PE
James W. Bochat, LEED-AP, NEBB Cx, NEBB TAB
Tim McGinn, P.Eng., LEED
Jerry M. Sipes, Ph.D, P.E.

This webcast will feature industry experts who will identify the link between energy efficiency and Indoor Environmental Quality (IEQ) through the integrated design process. Viewers will be able to recognize the importance of the four cornerstones of IEQ and how system selection can benefit both energy efficiency and IEQ.

President's Message

I hope this message finds you all in good spirits especially since it appears we are finally shifting from winter into spring. For this month's meeting, we will take advantage of an ASHRAE sponsored webinar, Buildings in Balance: IEQ and Energy Efficiency; I am looking forward to seeing everyone attend.

Regarding the Black Hills Chapter 2015 ASHRAE Region IX Chapters Regional Conference (CRC), we will be meeting with Lisa Storms, Director of Sales & Servicing of Rapid City Convention & Visitors Bureau, for her assistance. Everyone is encouraged to attend; please refer to the Black Hills Chapter 2015 CRC Planning Meeting date, time, and location identified below.

For a final note, we are getting close to the end of the 2013-2014 ASHRAE year and nearing the end of the end of our traditional 2 year term. With that being said, we are in the process of nominating individuals for our local ASHRAE Chair Positions. With the Black hills Chapter 2015 ASHRAE Region IX CRC coming up, this will be an exciting time to get involved. So if you would like to hold one of the chair or officer positions, I would appreciate hearing from you.

David Dowling, Vice President, Black Hills Chapter of ASHRAE

available!

Join ASHRAE in Seattle! Take advantage of the opportunity to discuss and examine the latest topics in the building industry, such as high performing buildings and integrated design, through the technical program; participate in technical tours; attend ASHRAE Learning Institute courses; and earn professional credits.

Research Summit – held in conjunction with the 2014 Annual Conference. The summit addresses the latest research results, innovative research techniques and forecasts future research directions.

Technical Program – presentations and papers focus on current research worldwide; core HVAC&R applications and systems; and Integrated Project Design, Energy Modeling and Building Efficiency Performance.

Networking – share ideas and learn from fellow members from your hometown and around the world.

ASHRAE Learning Institute – choose from two full-day professional development seminars and seven half-day short courses to stay current on new HVAC technologies.
