Subject: Black Hills Chapter of ASHRAE Upcoming Meetings
Date: Monday, April 08, 2019 3:02:12 PM

April ASHRAE Program

If you haven't already noticed, Society changed how the Webcast will be broadcast this year. It will now be shown at two separate times, one on Wednesday April 17th from 5:00 PM to 7:00 PM Mountain Time and one on Thursday April 18th from 9:00 AM to 11:00 AM Mountain Time. Both will occur live and will have time for questions and answers. The purpose of the change is to allow the broadcast to occur live for the international audience. Because the times are outside of our normal meeting time, we won't be having an official chapter meeting this month.

May ASHRAE Program

The chapter has been trying to coordinate a tour of a couple high profile facilities this year, but due to scheduling conflicts at the facilities, has been unable to do so. We are still working on a tour at one of the facilities next month, but will have an alternate program if the tour is unavailable.

June ASHRAE Program

The Black Hills ASHRAE Chapter will be providing a Distinguished Lecturer, Thomas M. Lawrence, Ph.D., for the Physical Plant Directors Conference in Pierre, SD in June. Further information about the conference will be available at a later date.
