

WEST PLAINS ENGINEERING
A CONSULTING ENGINEERING FIRM

In 1984 two young professional engineers, Mr. Dave L. Berg, Mechanical Engineer and Mr. Robert W. Thompson, Electrical Engineer, formed a partnership in Rapid City, South Dakota, to provide consulting services to the general area. By 1987 the firm had grown in number and business volume to necessitate opening another office in Sioux Falls, South Dakota. In 1991 Mr. Stephen J. Hayden, a Professional Electrical Engineer, became a partner and merged his consulting business with West Plains Engineering.

In 1993 as the firm continued to grow and prosper, the partnership was incorporated in the State of South Dakota.

The three engineering principals now have a combined consulting engineering experience of over 50 years. The company currently has 29 employees in three office locations: Rapid City and Sioux Falls, South Dakota and Casper, Wyoming. On staff at these locations are seven registered mechanical engineers, three registered electrical engineers and six engineers-in-training. Full time technicians, draftsmen and clerical people are staffed in all office locations as well. The professionals within the Company currently maintain active registrations in the states of Colorado, Iowa, Michigan, Minnesota, Montana, Nebraska, Nevada, North Dakota, South Dakota and Wyoming.
